| Voluntary | Hepatitis A 不 | | <input type="checkbox"/> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Routine | HPV (Human Papilloma Virus) 不 | | <input type="checkbox"/> | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |
| Voluntary | Influenza 不 | Every autumn | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | | |

Consult a doctor if your child has not finished the DPT combination and polio vaccinations.

DT combination booster shot at 11 years old.

Booster shot between 9 years old and one day before turning 13 years old.

The 2nd shot should be taken 2~4 weeks after the 1st shot. The 3rd shot should be taken half a year after the 1st shot.

Vaccine aimed for girls between 6th grade and 10th grade. Schedule varies depending on vaccine (2 valent or 4 valent).

Every year around October ~ December.

Routine In general, free if done within the predetermined period.
Voluntary In general, charges apply. Public expense subsidies available depending on the vaccine.

生 : Live vaccine

不 : Inactivated vaccine

◁ ▷ Recommended vaccination period

Often available as a combined vaccination

■ Target age for routine vaccinations

□ Age when voluntary vaccinations can be done
